

## **Bradford Research School and EEF Resources**

The EEF have produced a wide range to support schools with their provision in the current situation, including the [best evidence on supporting students to learn remotely](#), [support resources for schools and parents](#) and [early years support for schools](#).

There are also resources available to support planning for the future: [the evidence on the impact of school closures on the attainment gap](#), the [School Planning Guide for 2020](#) and information about the [National Tutoring Programme](#).

**Research schools are continuing to form partnerships that add capacity and support.** Contact your local Research School if you would like to start a conversation about this, typically with co- planning in the late Spring / Summer for delivery next academic year.

**Bradford Research School's** open training programmes this year take into account the unique challenges we are facing, and both start in late March. All Research School programmes provide support for implementation and follow-up. Further details are on the links below.

[Making the Difference for Disadvantaged Pupils](#) is designed to share the application of evidence in practice in areas of significant disadvantage. We explore practical and proven approaches for closing the poverty-related attainment gap. Case studies are rooted in the specific challenges of our locality and the challenges of disrupted learning.

[Maximising Memory and the Science of Learning](#), where delegates will explore practical, evidence-informed approaches for teaching with memory in mind. Bradford Research School work with experts on memory from Bradford's Centre for Applied Educational Research and the University of Leeds.

We continue to write articles sharing the evidence around the current situation. Examples include our advice on [remote teaching](#), [implementation at pace](#) and [creating the conditions for effective remote CPD](#). You can keep up to date with our latest articles and events by following [@BradResearchSch](#) on Twitter and signing up to our newsletter [here](#). For general enquiries visit our website [Bradford Research School](#) or email [admin.bradford@researchschool.org.uk](mailto:admin.bradford@researchschool.org.uk).
